

## AST Questionnaire

Named Insured:
Site #
Site Address:

Regarding all aboveground storage tanks at this site:

- Are all the tanks and associated piping in compliance with applicable Federal, State and Local requirements? \_\_\_Yes \_\_\_ No
  
- Is every tank situated on a concrete or an impermeable slab? \_\_\_Yes \_\_\_ No
  
- Is the material stored in each tank compatible with the tank construction material and the secondary containment? \_\_\_Yes \_\_\_No
  
- Does each tank have an impermeable secondary containment system that can hold either 110% of the largest tanks volume or 10% of the total tank volume (if more than one tank exist in the secondary containment area), whichever is greater? \_\_\_Yes \_\_\_No
  
- Are the fill, outlet and vent pipes located within the secondary containment area(s)? \_\_\_ Yes \_\_\_ No
  
- Is the site located in a 100 year flood plain? \_\_\_Yes \_\_\_No. If "yes", does the secondary containment wall of each tank extend above the anticipated flood levels? \_\_\_Yes \_\_\_ No \_\_\_Not applicable
  
- Does the tank system include a dispensing station? \_\_\_ Yes \_\_\_No. If so, is the dispensing station situated on an impervious surface with a spill collection system? \_\_\_Yes \_\_\_No
  
- What is the tank inspection and integrity testing schedule?  
\_\_\_\_\_  
\_\_\_\_\_
  
- When was the tank wall thickness last tested?  
\_\_\_\_\_  
\_\_\_\_\_
  
- Does the facility maintain an inventory of tank contents? \_\_\_Yes \_\_\_No

- Describe the security/monitoring at the premises:  
 Is the site manned 24 hours/day? \_\_\_Yes \_\_\_No  
 Is the site fenced? \_\_\_Yes \_\_\_No  
 Is the leak detection system electronic with central station alarm?  
 \_\_\_Yes \_\_\_No  
 Has the site ever been vandalized / threatened? \_\_\_Yes \_\_\_No. If "yes"  
 describe the incident(s): \_\_\_\_\_  
 \_\_\_\_\_

—

- Provide a site diagram indicating location of tanks and nearby bodies of water.
